

## Who We Are

Demands of the steel construction industry are unique and without parallel. The quality of workmanship is paramount. There is no room for errors or make-ups. At every level of execution, a great deal of attention is required from every resource that is deployed.

While this demand for high quality exists across the board, the pressure on owners and builders to contain costs has never been higher.

We at 3Define are proud to be doing our part in addressing this need in the industry. Since 2015, we have been providing high quality structural steel detailing solutions for fabricators, general contractors and building owners at some of the lowest prices in the industry.

## About the company

Get to know us.

We at 3Define began providing detailing services in 2015. The secret of our success has been quite simple. We built our organization around a framework of quality standards which we put in place from very early on. Our team of experienced detailers, checkers and project managers work within very strict quality guidelines with checks and balances. We simply have no loopholes for errors to creep into our deliverables!

OUR EXPERTS DELIVER INNOVATIVE, EFFICIENT & VALUE-DRIVEN SOLUTIONS FOR CUSTOMERS IN THE FABRICATED STEEL INDUSTRY
